## IT & INFRASTRUCTURE ASSESSMENT

When it comes to technology  
**you do not have to do it alone**

It's not uncommon that for many churches, their technology needs are handled by both internal and external resources including contractors, consultants and other third-party vendors. This requires a skilled hand in coordinating the communication and management of all of these moving parts while keeping the overall vision and mission of the ministry in focus.

### IT/Infrastructure Assessment

- Website Audit
  - Security (SSL Certificates)
  - Backup
  - Legally Compliant
  - SEO Analysis
  - Analytics
- Social Media Audit
- Cybersecurity Audit
- Backup & Disaster Recovery
- IT Infrastructure
- Policies & Procedures

**Duration: 2 Weeks Price: \$1500 + Travel**
